- **Prism Glass:** BAK 4
- **Focus System:** Center Focus
- **Field of View at 1000 yds:** 315ft
- **Material:** Magnesium Alloy
- **Weight:** 23oz/652g
- **Length:** 5.6in/141mm
- **Eye Relief:** 15mm
- **Exit Pupil:** 4.17mm
**BASIC OPERATION**

- The eyecups on a Riton 10x42 binocular twist up and down so any viewer can see the full field and enjoy comfortable viewing with or without eyeglasses. When not using eyeglasses or sunglasses, keep the eyecups fully extended. For the best viewing when viewing through eyeglasses, twist eyecups down.

**Adjust the Interpupillary Distance**

- The interpupillary distance (IPD) is the distance between the centers of the left and right eye pupils. Match the IPD of your eyes to that of the binocular so that you see a single image that is free of shading.

**Properly focus the binocular**

**BINOCULAR FOCUS**

For the best possible views, follow this two-step process to properly adjust the center focus and diopter.

Choose an object that is about 20 yards away from you and stay in the same spot until you have adjusted the binocular for your eyes.

1. Adjust the center focus—first start by closing your right eye or covering the right objective lens with your hand. Focus your left eye on the object and adjust the center focus wheel until the image is in focus. Leave the center focus in this position as you adjust the diopter.

2. Adjust the diopter—start by closing your left eye or covering the left objective lens with your hand. Look through your right eye and adjust the diopter ring (found on the right eyepiece) until the object is in focus. Make note of this diopter setting in case you need to set it again. From this point on, you will only need to use the center focus wheel.
ACCESSORIES

The Riton X5 10x42 Binos come with a rainguard for the ocular lenses and tethered objective lens covers. Use these covers to protect the lenses whenever you are not viewing.

Lens Covers
The Riton protective case provides safe storage between viewing sessions.

Carry Case

ACCESSORIES

Attach the padded neckstrap to the Riton Binos in three simple steps. Begin with the right barrel of the binocular and repeat the process for the left barrel.

Neckstrap
1. Push a few inches of the strap through the strap attachment on the binocular.
2. Hold the buckle and thread the end of the strap through the buckle.
3. Adjust the overall length, then pull the tight until strap secured within the buckle.

Note: If using another type of strap, never attach metal o-rings directly onto the strap attachment.

LENS CARE

- Maintain the optical brilliance of the Diamondback binocular by keeping lens surfaces free of dirt, oils, and dust.
- Protect lenses while out in the field. Make use of the provided eyepiece and objective lens covers to protect the lenses when not viewing. Then, store the Riton Binos in the carry case between viewing sessions.
- Keep lenses clean
- In order to enjoy the best views through your Riton binocular, take time to regularly clean the exterior lenses:
  1. Remove any dust or grit from lenses before wiping. Use a can of pressurized air, soft camel hair brush, or an acrylic optical brush.
  2. Clear lenses of smudges, fingerprints, or eyelash oil. Fog the lenses with your own breath, then use a non-abrasive lens cloth to clean the lenses.
- Note: Use lens cleaning fluid and optical paper to clean lenses. Never use facial tissue, heavy cotton, or flannel clothing on lenses—these materials can scratch the surface of a lens
Riton Warranty

As a part of the Riton Promise we believe in providing you with the best possible service, including the industry’s best warranty. The quality of our products makes this the best warranty you’ll likely never have to use; however, as hunters and outdoorsmen and women, we know that bad things sometimes happen to even the most cautious.

OUR WARRANTY IS SIMPLE:

• No proof of purchase or registration required for your Riton products.

• Lifetime warranty regardless of original purchaser.

• All warranty replacements will receive a brand-new product off the shelf. We will not ever replace the product with a repaired or refurbished product.

• Replacement product will be shipped within 48 hours of receiving and approving your return.

• Loss, theft and/or deliberately worn and damaged products are not covered. Warranty is VOID if damage results from unauthorized repair or alteration.
